## Quality is in the Details

WOLF Classic Cabinets are hand crafted in America's heartland, combining generations of woodworking expertise with today's latest manufacturing technologies. Hundreds of skilled craftsmen work in two modern facilities to produce cabinets of exceptional quality and value.

Solid wood components, including doors and face frames, are locally fabricated from domestic hardwoods, creating dozens of additional jobs in nearby Midwestern communities. A state-of-the art finishing system produces a consistently beautiful and long-lasting appearance.

The result is an affordable, high quality cabinet line with many features typically found in much more expensive cabinetry, including:

- Maple doors and drawer fronts
- Dovetail drawer construction
- Full ½" plywood side and back panels
- ¾" solid wood corner blocks
- ¾" adjustable plywood shelves

Plus, WOLF Classic Cabinets come with an industry-leading Five-Year Limited Warranty and a reputation for quality and satisfaction dating back to 1843, when Adam Wolf opened his first lumber store along the banks of the Susquehanna River in rural Pennsylvania.
